

Girls excel in 2022 ICAS Assessments

Meriden students performed exceptionally well in the 2022 International Competitions and Assessments for Schools (ICAS) in Science and English. Eighteen students achieved a High Distinction in the English assessment and three students achieved a High Distinction in the Science assessment, placing them in the top one per cent of students in New South Wales.

Congratulations to Year 7 student, Yiru Li, who was awarded an ICAS medal for both assessments. These prestigious medals are presented to students who receive the top score in their age group globally. To receive two medals is a significant accomplishment.

ICAS is designed to target students' higher-order thinking and problem-solving skills, and the participation of all students provides a rich picture of their skills and potential.

We congratulate all our participants on their efforts in this competition. Special recognition goes to the following students who achieved High Distinctions in the assessments:

Year 7 - English	• Katherine Fanning • Iris Gai • Sophie Lau • Yiru Li • Miriam Shin	• Anusha Viswanathan • Veronica Xie • Jasmine Yang • Chloe Zhou
