

Year 10 Student Futures Day

Earlier this month, Meriden's Year 10 students were inspired to envision their future beyond the school gates by a network of accomplished women during Student Futures Day. Year 10 students were asked to embrace the theme of the day and wear professional attire as they move one step closer to planning for life beyond the classroom.

The girls established connections and gained insights from Meriden alumnae working in diverse professional fields. In addition to engaging in group mentoring sessions and mock job interviews, the girls participated in workshops covering topics such as refining their online presence and mastering the art of presenting themselves in job interviews. Meriden Old Girls relished the chance to reconnect with familiar faces, reflecting on the transformations within the school since their last visit.

MERIDEN
AN ANGLICAN SCHOOL FOR GIRLS
