

# Construction Management Plan

## Installation of Hold Open devices on fire doors in Meriden Senior School campus

The following plan has been developed by Meriden School in conjunction with Chubb Fire & Security Pty Limited.

### Construction hours

All work will be conducted Monday to Friday between the hours of 0700AM to 1530PM.

It is estimated that the works will be completed within 3 weeks of commencement.

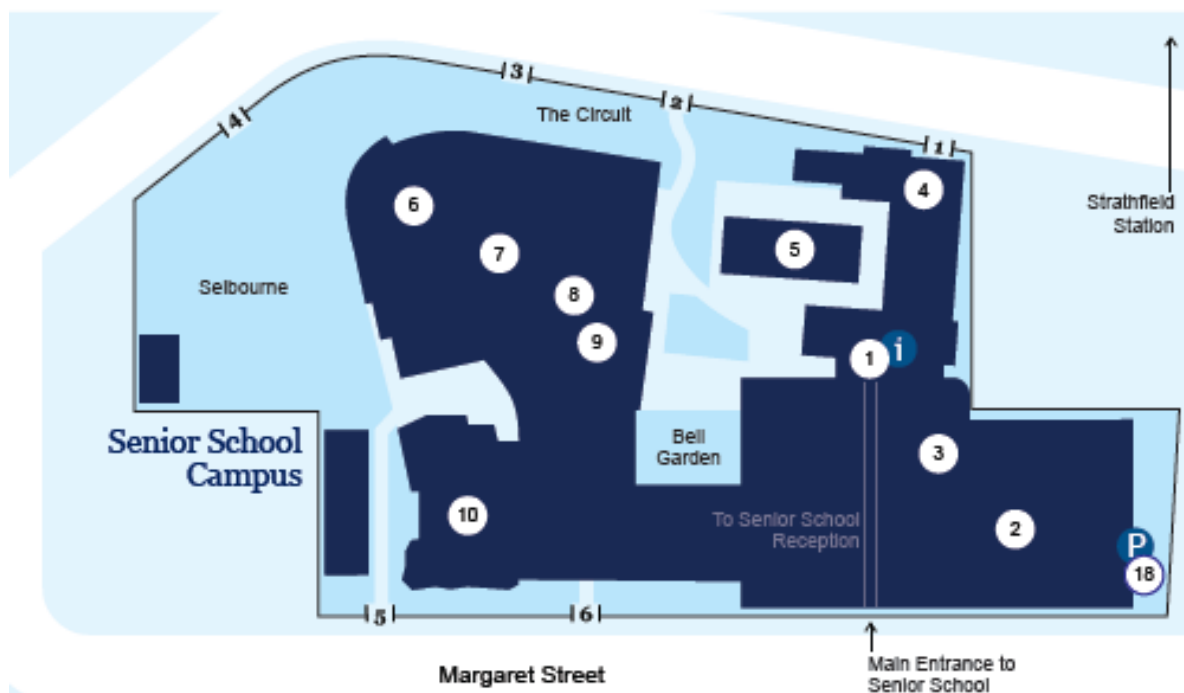

### Waste management

Given the scale of the works, construction waste is expected to be minimal. Waste to be removed by Chubb and disposed of at their office at Unit 1a, 21-23 South Street, Rydalmere NSW 2116.

Paper, plastic and cardboard will be recycled. E waste disposed of in E waste bins for collection. The remaining waste will go to landfill.

### Site access and parking

Site access will be by the Senior School Carpark shown at point 18 on the following map:

Parking will be provided on site by Meriden.

### Dust and air emissions

Dust control and air quality is maintained during construction, by/ in accordance with:

- Exhausts and ductwork from equipment are located away from air intakes, windows, enclosed areas and public areas.
- Prohibiting the burning of timber and other combustible materials.

## **Noise and vibration**

Noise is minimised during the construction process by and in accordance with:

- Construction works only take place in accordance with the construction hours.
- Ensuring that plant and equipment is maintained as per the manufacturers' specification.
- Blasting is banned on-site.
- Recording incoming complaints in the Community Complaints Register. The registration of a particular item remains open until the complaint has been dealt with appropriately.
- Implementing corrective measures in response to community issues to minimise the likelihood of reoccurrence.

## **Construction safety measures**

Barricades and signage used as required when working in public areas. SWMS will be developed and provided to the School prior to commencement of works.
